terms employed by the Government Departments has been appended to the work. In preparing this supplement, I have much satisfaction in expressing my obligations to Mr. Edward Van Dyck, and Murad Effendi Muktar of the Ministry of Public Instruction, for their assistance in some of the words.

I have followed the plan of Arab Lexicographers in giving the past and present-future forms of the verb, and the noun of action or noun of triliterals in full; for these forms are conventional, and can be learned only from classical usage, or from a reference to the dictionary. The triliteral .measure or form of the verb is held by Arab grammarians to be the root of all other words, and it is marked in this book with an asterisk to denote the origin of the derived words which follow. The same sign has been affixed to nouns which can be traced to no verb. The present-future and verbal noun of augmented verbs are regularly formed, and are not given in this work except in special cases. More attention has been paid to the different shades of meaning of the words most in use than to the introduction, in the limited space I have at my disposal, of words whose use is rare or obsolete. The different shades of the same signification--or totally different meanings—are separated by a comma, semicolon or period, according to the degree of proximity or divergence of sense. The examples given are generally inserted with the explanation of the word; sometimes they follow in a separate line.

Finally, my best thanks are due to the learned Editors of *Al-Muktataf*, at whose Printing-office this book was published. They were careful not only in securing accuracy of typography, but also in making occasional changes which add much to the value of the Dictionary.

PREFACE TO THE FIRST EDITION.

The object of the present work is to supply the want, long felt by many, of an accurate Arabic-English Dictionary, which shall contain within a moderate compass, the words most in use among Arabic classical writers, and which can be procured at a reasonable price. Every effort has been made to attain this object, and it is hoped that Oriental Scholars will approve the result.

Distrusting myself in so responsible a task, I fortunately obtained the invaluable assistance of two competent collaborators: my father, the Rev. John Wortabet, M.D., and Professor Harvey Porter, B.A.

My father selected the Arabic words for translation, and revised the whole work, and Professor Porter revised and compared with the exhaustive dictionary of the late Mr. Lane, as far as it has been printed, viz., to the letter (م). They also rendered the following letters of the Alphabet:

ف غ ع ظ ط ض ص ز ر

To both I now offer my sincere thanks for their important services in a labour which has engaged me, more or less, during the last four years. I have also to acknowledge much help which I derived from the Arabic-English Dictionary of Dr. Steingass, and the Arabic-French Dictionary by the Jesuit Missionaries of Beyrout.

To the classical, a good many modern words, or modern significations of old words have been added, enclosed in brackets. A supplement also of words used now in Egypt, including some of the most useful technical

Publisher's Note

Wortabet's Arabic-English Dictionary is one of the most accurate dictionaries known. It was compiled by **Dr. William Thomson Wortabet** with the collaboration of **Dr. John Wortabet** and **Dr. Harvey Porter.** It was also revised by Mr. **Yacoub Sarrouf** and **Mr. Faris Nimr** founders of Al Muktataf. The result was a dictionary acknowledged by experts as an authoritative reference.

Librairie du Liban is now making the fourth reprint of this work available in the Arab World as a service to students of English and as a memory to its eminent author.
